INTRODUCTION

Givengo has established itself as a major player in the world of scouting by providing comprehensive and one of its kind player reports, events analyses, boards and rankings.

Evaluating and recruiting talents is crucial for professional teams, universities, and organizations. With its innovative approach and advanced analytical methods, **Givengo** offers detailed assessments that help discover future basketball prodigies or more experienced players in France and Europe.

The Bronze option allows you to track and monitor players' performance during the season highlighting upward or downward tendencies with boards and rankings published every month. This process will enable your to identify players who are constantly improving and those who may face more challenging periods.

For the Silver option, you will receive the content of the Bronze option, followed by profiles of the top players of the month on both a national and/or European scale. In these profiles, our analysis will provide an overview of the players' major skills, categorized into strengths, weaknesses, advantages, and drawbacks. Through our continuous observation, you will gain insights into the player's momentum during the period, and our algorithm will reveal the key intangible asset that the players can bring to the field when they are in action.

For the Gold option, you will have direct contact with **Givengo's** experts and access to three types of reports: *Skills reports*, covering the technical, tactical, physical, and mental aspects of the player, *Intangibles reports*, guiding you on how to welcome, integrate, and foster the player's development within your organization, and finally, *Intel reports*, providing you with a better understanding of the player's background and history that could lead them to your team.

Whether you are an executive, a recruiter, a coach, or a fan of the game, these reports will provide you with crucial information to identify the most promising talents. Don't miss this unique opportunity to dive into the scouting world thanks to **Givengo**.

We have closely followed both local and international competitions year after year, staying up-to-date with the evolving landscape of basketball.

We are proud of our journey so far and are excited to continue serving the basketball community with our unmatched understanding and dedication to the sport.

Givengo is committed to consistently delivering diligent work to ensure that the following information is not only relevant but also truly embodies the *Givengo* brand identity. Our dedication to maintaining the highest standards reflects our unwavering commitment to excellence.

THE GIVENGO CONCEPT

To explain our approach, we want to be transparent about how we categorize and rate players in our reports. First and foremost, we assign a projection rating to the player using a star system ranging from 1 to 5 stars. This Givengo projection rating helps us assess how the player may develop in the future. Here is the star rating correspondence:

- ★ ★ ★ ★ ★ Lottery Pick
- ★ ★ ★ ★ ☆ First Round Pick
- ★ ★ ★ ☆ ☆ Borderline First Round Pick
- ★ ★ ☆ ☆ ☆ Second Round Pick
- ★ ☆ ☆ ☆ ☆ Europe, Domestic Players

To continue, our reports feature player rankings presented in table form, based on your subscription. These rankings can be monthly or annual, by generation or overall, by nation or multinational. As for event rankings, they highlight the impact and influence of players on the competition. Thus, a high-performing player may be well-ranked in the event ranking without necessarily being at the top of the age generation ranking. For age-based rankings, we use the same star-based rating, with the most promising players placed at the top. A trend indicator is also provided to inform you whether the player is on an upward, stable, or declining trajectory.

To conclude, we provide dated evaluations of players' skills. Event evaluations reflect the specific event and summarize the player's tournament performance, while monthly evaluations reflect the player's current state as a momentum over the past month. Our Gold evaluations highlight an MVP player, Player of the Month, or a prospect to watch. In addition to the player's strengths and weaknesses, we deliver thanks to the givengo algorithm insights into the player's intangibles.

THE SPANISH CENTER ACHIEVED A HISTORIC FEAT, BECOMING THE INAUGURAL PLAYER TO SECURE THE U19 WORLD CUP MVP ACCOLADE, HAVING PREVIOUSLY EARNED THE SAME HONOR AT THE FIBA U17 BASKETBALL WORLD CUP. FUTURE IGNITE PLAYER, THIRD CONSECUTIVE FIBA TOURNAMENT MVP TITLE. HE LED THE TEAM IN SCORING, REBOUNDS AND BLOCKS.

INTANGIBLES

IZAN ALMANSA APPEARS TO BE SOMEONE WHO NEEDS TO ISOLATE HIMSELF, HENCE HIS INTROVERTED AND LESS VOCAL BEHAVIOR ON THE COURT. AT THE SAME TIME, HE SEEMS TO THRIVE ON CHALLENGES, AS EVIDENCED BY HIS SENSE OF EFFICIENCY. HIS STRESS MAY STEM FROM NOT BEING ABLE TO FIND SHORT-TERM SOLUTIONS AGAINST STRONG OPPOSITION, WHICH COULD LEAD HIM TO DISCONNECT FROM HIS TEAM'S DYNAMICS. NEVERTHELESS, HE IS PRIMARILY A PLAYER WHO CAN BRING EMOTIONAL STABILITY TO A GROUP AND NEVER LACKS ENERGY. HE EMBODIES A LEAD-BY-EXAMPLE PROFILE, CAPABLE OF PLAYING WITH GREAT ACTIVITY TO ACHIEVE HIS GOALS WITHOUT NEEDING OTHERS TO PROVIDE HIM WITH THE ENERGY TO DO SO.

PLAYER MOMENTUM

IZAN'S DEVELOPMENT HAS BEEN STABLE WITH LIMITED CHANGES.

MENTALLY, HE'S COMMITTED AND TOUGH, ALTHOUGH NOT VOCAL OR A STRONG LEADER. PHYSICALLY, THERE HASN'T BEEN MUCH GROWTH IN HEIGHT OR MASS, BUT HIS ATHLETICISM IN RUNNING AND JUMPING REMAINS HIGH. TACTICALLY, HE EXCELS IN OFF-BALL PLAY AND THE PAINT, WITH A FOCUS ON REBOUNDS AND RIM PROTECTION. HE'S ALSO WORKING ON HIS OUTSIDE SHOOTING. TECHNICALLY, HE'S SKILLED AT SETTING SCREENS AND FINISHING NEAR THE BASKET, BUT HASN'T DEVELOPED BALL-HANDLING MUCH. DEFENSIVELY, HE'S ACTIVE AND HANDLES CONTACT WELL IN BOX-OUT SITUATIONS.
